LBT
The Toughest Tank

TRI-AXLE STANDARD DUTY

You're in the business of hauling petroleum in demanding conditions. LBT is in the business of building tanks that stand up to them. Made in the USA and engineered to a higher standard, LBT petroleum trailers are built with durability, consistency and long-term performance at the forefront. Every design decision is intentional—because real work demands real toughness.

Since 1994, LBT has earned its reputation as The Toughest Tank. Engineered and built to exacting standards, LBT petroleum trailers deliver proven reliability, practical design and long service life. When the job is hard, the tank should be tougher.

Configurations:

Straight frame
1+ compartments
(single or double heads)

Capacity:

10,500 to 12,500 gal. +3%
